

Stress Test 1

Duration: 20 minutes

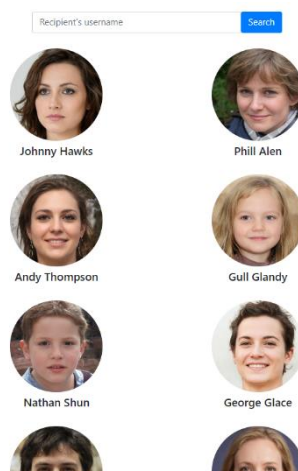

Develop a page with the following components:

- The **entire page** is center aligned
- A Search bar with a search button next to it
- A **responsive** table of 9 users. You can choose the name of your own will. The image is provided in the folder.
 - The images have rounded corner
 - The table **show 3 users per row** on laptop screens
 - The table **show 2 users per row** on tablet screens
 - The table **show 1 user per row** on mobile device screens
 - The content in each cell is center aligned

The expected design on **laptop** screen is as follows:

On **tablets**, the design is as follows:

On **mobile devices**, the design is as follows, note the search bar spans across the entire width of the screen:

Johnny Hawks

Phill Alen
